Fax: +49 (0)9441 2005 20
Email: info@pco.de
http://www.pco.de

PCO AG was founded in 1987. The company headquarters in Kelheim employs more than 50 specialists in the development and production of optimized, fast, sensitive camera systems for scientific applications. PCO's range of products includes digital camera systems featuring high dynamics, extremely high sensitivity, high resolution, high speed, and extremely low noise, which are sold in industrial and scientific markets all over the world.
The systems produced by PCO AG are cameras and scientific measuring instruments at the same time. Our hightech systems are mostly the result of manual labor: over 50 highly specialized employees handle development and production at the Kelheim site. We deliver roughly 4.000 cameras a year to customers all over the world. As in every cutting edge technology, dialogue with the user is the main focus of PCO's approach. Worldwide representatives, in cooperation with the in-house marketing division and technical support team, ensure that PCO camera systems are developed in step with the individual requirements of our customers. PCO AG provides ImageJ plugins for the pco.camera, sensicam, and pixelfly series for free.

JENOPTIK I Optical Systems
JENOPTIK Laser, Optik, Systeme GmbH
Digital Imaging Business Unit
07739 Jena / Germany

ProgRes® Best Image Results

ProgRes® microscope cameras deliver excellent image quality in light microscopy, whether natural color reproduction or lowlight fluorescence imaging are required.

Simple image documentation or demanding image analysis due to the automatic functions of ProgRes® CapturePro software you can optimize your images with merely three mouse clicks. Additional software features supports you for optimization of your image capturing for different applications. ProgRes® CapturePro is included in delivery of each ProgRes® camera.

Beside the commercial presenters you will find additional demos to test the power of ImageJ and its plugins. Feel free to use this opportunity to discuss directly with the plugin developers.
